Subject: RIN 1210-AB32

This is just a quick, urgent note to request the elimination of the provisions in RIN 1210-AB32 that would prohibit or even impede owners of retirement accounts from using options in their accounts. Options, used properly, reduce the amount of risk in trades, and serve as a way to bolster returns. I've put a lot of time and money into learning the techniques, and would like to be able to continue.
